|---|---|
| 7 | Working alone in the laboratory - I understand that research may need to be conducted at all hours of the day. I may need to find a companion to work in the lab at the same time so that I am not alone in the lab in case of an emergency during a particular experiment or I may agree to call a friend/supervisor every 30 min (or other designated time) to ensure my safety. |
| 8 | Safety Data Sheets (SDS) - I have access to and know the location of the safety data sheets. |

- 9 **Personal Protective Equipment (PPE)** - I understand that wearing safety glasses or goggles, fully enclosed shoes, and a lab coat are required for laboratory work at all times. When working with chemicals or biohazards I should also wear gloves that are recommended to protect
