## Comment Field

Save

The screenshot shows a web interface for managing a routing queue. At the top, there is a header with the text "Routing Queue". Below this, a table lists items with columns for "Approval Level", "User Name", and "Remaining Action". The table contains several rows of data, some of which are partially obscured by a black redaction bar. Below the table, there is a section titled "Comments". Under "Comments", there is a text input field with the placeholder text "Add Comment". Below the input field, there is a character count indicator that reads "Remaining Characters: 1000". At the bottom right of the form, there is a green "Save" button.
