

VMASC M&S STUDENT SCHOLARSHIP

In support of the ODU Modeling and Simulation Graduate Program, the Virginia Modeling, Analysis, and Simulation Center is awarding **awards for Research Assistantships**. These awards are up to three years in duration, and they will go to outstanding students entering with the following **masters at their programs**:

The intent of the award is to foster student research and collaboration in VMASC Research Faculty as well as to develop student scholarly excellence that yields an increase in the publication of their research work.

DESCRIPTION

Each recipient will receive up to a three year stipend totaling \$60,000. An annual amount of \$20,000 will be distributed over three consecutive academic years (fall, spring, and summer semesters). Renewal of the award is contingent on student progression and/or voluntary renewal.

Eligibility and Terms of Award

1. Students must be **enrolled full time** (at least 9 credit hrs) in the fall and spring semesters and full time (at least 9 credit hrs) in the summer semester of the award period and make successful progress toward completion of their degree.
2. **Tuition will be provided by the College** (with certification to continue to support the student)
3. Students are required to **conduct research at VMASC 20 hours weekly** during the academic year
4. Students are **precluded from other work for compensation** while supported by the Association, unless explicit permission is granted and approved of the Executive Director of VMASC
5. The student must **present his/her research** or create a poster at the annual (spring) VMASC Student Modeling, Simulation & Computation Conference, as well as other University sponsored events.

NOMINATION & SELECTION

VMASC Research faculty can submit nominations to the Executive Director of VMASC. Students can self-nominate. Selection will be made by the Executive Director with input, if needed, from the VMASC faculty mentor and the MSIM Graduate Student Program Director.

Each nomination package must contain the following:

1. A one page **statement** from the candidate describing his/her research project to include: a) a brief overview of a proposed project, and its significance to the discipline and, b) where he/she intends to submit the final project for publication or exhibition.
2. **Letter of recommendation** from the VMASC Research faculty mentor describing the merits of the student's academic qualifications for the competition specific to the research task (addressing the originality, sophistication and impact of the student's work to the discipline, and the scholarly phenomenon).
3. Copy of the student transcript.
4. **Sample of research** (Master's students may submit a significant project or paper / doctoral students may submit their Master's thesis or significant project).
